

Pilot Zones Map

Explore the designated zones for improved navigation

STEP 1

Gather Necessary Data

Collect data on traffic patterns and pedestrian flow to understand the area better.

STEP 2

Identify Key Areas

Tegel, BER, and Vivantes Hospitals serve as essential landmarks for the pilot zones around the city.

STEP 3

Analyze Findings

Review the collected data to discover trends and optimize the zones based on results.

STEP 4

Implement Changes

Adjust pilot zones accordingly to improve efficiency and safety for users.

STEP 5

Monitor and Evaluate

Continuously assess the effectiveness of changes and make further improvements as needed.
